Tips for a safe sailing holiday

1

To avoid problems, please do the check-in precise and write down every deficiency on the check list.

2

The harbour guides for the Mediterranean on board may be used for navigation only. Any use of other documents than those specified, results in liability of the skipper in the case of damage.

3

The electronic map is a navigation AID and was developed to simplify the use of official maps. It is no replacement for the official sea maps and messages, whereas only they contain necessary information for safe navigation. The captain is responsible for its correct use.

4

The passing between the island „Fenoliga“ and „Kamenjak“, the island „Frašker“ and „Camp Indije“, as well as between the island Veruda („Fratarski“) and „Camp Indije“ is not permitted as a rule.

5

We recommend refueling the yacht on the day before check-out at the latest 14:00 in the Marina Veruda. Enjoy the rest of the day in the nearby bays!

6

The the reserve can of the diesel and for the warter are not filled.

7

Give stowaways (rats) no chance! Please put rests of meal and the gangway away.

8

Think of the next crew! Regrettably it happens that yachts are left in very dirty and disorderly condition so the final cleaning takes longer as it should. This delays the next check-in. We kindly ask you to hand over the boat clean and tidy. Please dispose of your rubbish in the designated containers in the marina. These measures will facilitate a swift and punctual check in for the following crew. Thank you for your cooperation.
